

# CONNECT

with  
Neurology Social Services Network

## Who is the Child Neurology Foundation?

Established in 2001, the Child Neurology Foundation (CNF) is a patient advocacy organization on a mission to serve as the collaborative center of education and support for children and their families living with neurologic conditions. Headquartered in Lexington, Kentucky with staff working across the United States, our vision is to see a world in which all children affected by neurologic disorders reach their full potential.

## What is the Neurology Social Services Network?

The Neurology Social Services Network (NSSN) was launched by CNF in 2022 as a way for patient advocacy organizations to come together to help families with children with a neurologic condition find the social services and emotional support they need.

Where can I find more information about the NSSN?

## What social services exist for families?

There are hundreds of social services that we can find for families. Here are just a few:

- Respite care
- Housing
- Financial Assistance
- Mental Health Support
- Employment
- Food
- Medical equipment
- Utility Support
- Peer Support
- Clothing

*...and much more*

## How do I get a family connected?

If you are a medical professional, you can fill out the request on behalf of the family or you can have the family submit the request on our website.
